Kenya coffee is growing at altitudes  
ranging from 1,700 to 1,800 meters,  
giving it a distinct taste.

Kenya coffee has a winey aftertaste with notes of berry and citrus. Kenyan coffee is known for its powerful character and potent sweetness with many different varieties of taste.

Known for its consistently rich flavor along with a deep, wine-like acidity and pleasant aroma, Kenya coffee beans have a distinctly bright taste with complex tones of fruit and berry.
